I am not a practitioner

11/18/2013 8:19 AM

Q9 Would you be more likely to attend training on the LEOp and/or PPS if Polio Australia listed your services on a national post-polio related Medical Specialist Directory?

Answered: 65 Skipped: 2

Answer Choices	Responses
• Yes I would be more likely to attend.	16.92% 11
• No I would want to attend anyway.	33.85% 22
• No it would make no difference to me attending.	49.23% 32
Total Respondents: 65	

#	Other (please specify)	Date
1	Would be beneficial though if the training was recognised by a Fitness Registration eg. Physical Activity Australia.	11/28/2013 11:36 PM
2	Not applicable	11/18/2013 8:48 AM

Q10 Polio Australia would like to conduct a workshop on the LEOp and/or PPS. What would you like to have included in the training ?

Answered: 44 Skipped: 23

#	Responses	Date
1	information regarding exercise. any education regarding LEOp/PPS to update my knowledge	12/5/2013 8:51 AM
2	How the poliovirus affects the body, recognising symptoms, and targetting therapy specifically to the condition.	12/4/2013 12:17 PM
3	Evidence based interventions. Details regarding what to provide for specific issues , not generalised education.	12/3/2013 2:45 PM
4	Training of symptoms Support for individuals and families How we can better support ppl in clinical practice	12/3/2013 11:09 AM
5	Exercise differences, case studies, links to resources and handouts	12/3/2013 9:05 AM
6	practical tips on managment of the disease/ syndrome	12/2/2013 2:24 PM
7	your the experts. i would expect some history, advancement in treatment, expectations etc	12/2/2013 11:21 AM
8	basic information about desease and how one can assist a person affected	12/2/2013 10:33 AM
9	Coverage of all the information you have described above. I would also like specfic information on implications for OT practice.	12/2/2013 9:50 AM
10	Effect on post-war european immigrants to Aust who had polio as children prior to establishment of immunisation programs - how are affected	12/2/2013 8:54 AM
11	Please consider providing and resourcing this workshop as an webinar/online resource, to enable as many people as possible to benefit from this knowledge. THANK YOU!!	12/2/2013 8:43 AM
12	Information regarding the physiological changes that occur with LEOp and/or PPS, principles for appropriate exercise programs, predicated long term outcomes, recognising those at risk and how to manage the risk, can the onset of symptoms be delayed or severity reduced?	12/2/2013 7:56 AM
13	Presantating symptoms and best exercises options, especially differences to other neuro conditions.	12/2/2013 7:55 AM
14	Prognosis, neuropsychological and psychological effects	12/2/2013 7:44 AM
15	As described above, effects of LEOp and or/PPS, identifying who is at risk, exercise guidelines, education etc.	12/2/2013 7:26 AM
16	Appropriate Exercise How to access suitable group programs for people with PPS/LEoP What are the demographics of people with PPS Increase my knowledge of how to access appropriate services. Is ther any special funding for equipment needs (other than through SWEP)	12/2/2013 7:20 AM
17	future signs and symptoms resources for support	11/30/2013 8:34 AM
18	I have no prior knowledge on polio, how many people are diagnosed each year, the effects and how they can be supported, so I would like to get this included in a training program	11/30/2013 5:46 AM
19	All to address the questions above. Thankyou.	11/29/2013 2:57 PM
20	How to integrate this for a specific person within a general older adult exercise program with limited resources in a community setting.	11/28/2013 11:36 PM
21	Up to date EBP for management of these clients, allied health involvement.	11/20/2013 12:37 PM
22	S&S, prognosis and treatment- specifically exercises and/ or other therapy	11/20/2013 8:03 AM
23	Anything relevant	11/19/2013 9:04 AM
24	Stats, Treatment	11/19/2013 7:51 AM
25	overview of disease and management	11/19/2013 7:43 AM

The Late Effects of Polio (LEoP) Educational Workshop

26	Detailed effects of the condition at the early stage and the later medical issues. Rehab that has proven effective. Clients with these disorders relating the impact it has on their life.	11/19/2013 7:37 AM
27	yes	11/18/2013 9:18 AM
28	Diagnosis Symptoms Management Strategies in particular for OT Resources and services available for this client group	11/18/2013 8:34 AM
29	All info relating to the above questions especially exercise and long term effects	11/18/2013 8:19 AM
30	exercise programming for LEoP and or PPS with demo pt outcome measures relevant different orthoses seen with pt	11/16/2013 10:03 PM
31	Resources and professional links to work with	11/15/2013 3:24 PM
32	Yes	11/15/2013 1:48 PM
33	Latest research. Resources available	11/15/2013 9:40 AM
34	Yes but my employer may not pay. I would have to be able to attend. On line would be excellent	11/15/2013 8:31 AM
35	polio virus effects; PPS and signs to look out for; treatment principles	11/15/2013 8:18 AM
36	Symptoms, prevalence, management with exercise, supports services	11/15/2013 8:18 AM
37	Good information about Polio and prevalence, outcomes, ageing	11/15/2013 8:17 AM
38	The above details and functional implications for independent living Any preventative strategies and info on specialised treatment It would be good to have a manual on the details of the condition and more info on services in my local area Access to services for my clients is an issue and this should include diagnosis	11/15/2013 8:13 AM
39	Info on Polio, What Polio Australia offers, how to manage people with polio and post polio	11/15/2013 7:55 AM
40	Presentation of what Polio is Case Studies, Practical discussion sessions. Treatment, and current management techniques that clinicians can work on in the home.	11/14/2013 3:10 PM
41	Impact on communication and swallowing secondary to respiratory difficulties.	11/14/2013 2:34 PM
42	any information would be valuable	11/14/2013 2:06 PM
43	Suitable exercise types/levels How to monitor reactions to exercises (ie when to progress or regress) Exercise options in the community for people with PPS	11/14/2013 1:53 PM
44	nutritional aspects ie protein requirements in relation to muscle wasting, appropriate food textures in relation to swallowing difficulties, any micronutrient aspects that may be pertinent etc	11/14/2013 1:30 PM
